

REMARKS

Objected to claim 27 has been canceled. Claim 1 has been amended to be consistent with formulas (II) -(IV) and the example structures by providing that the phenyl groups at the 6 and 12 positions may be substituted. This amendment of claim 1 also obviates the rejection of claims 7-24, and 29-32 based on the value of n possibly being 0, which is now permissible, and claim 32 based on the apparent inconsistency for Inv-1 and Inv-17.

A Terminal Disclaimer overcoming the provisional double patenting rejection over the indicated copending application is enclosed.

In view of the foregoing amendments and remarks and the enclosed Terminal Disclaimer, the Examiner is respectfully requested to withdraw the outstanding rejection and to pass the subject application to Allowance.

Respectfully submitted,

Attorney for Applicants
